**Information on our
trusted partners**

Thank you for your interest in donor sperm through CAN-AM Cryoservices!

CAN-AM Cryoservices is a Canadian **distributor** for Fairfax Cryobank, Northwest Cryobank, Seattle Sperm Bank, and Xytex. We have many Canadian compliant donor units in stock at CAN-AM that are ready to be shipped overnight to your clinic. Please keep in mind that CAN-AM Cryoservices is a distributor; **we do not recruit donors.**

For a full list of donors that we currently have in stock here at CAN-AM (Fairfax, NW Cryobank, Seattle Sperm Bank), or are available to order from the supplier (Xytex), please visit our donor catalogue here:

<https://www.canamcryo.com/en>

We have summary profiles of the donors on the CAN-AM website with a link that will take you to the full profile on the suppliers' website. We have made it possible to access all donor profiles for free, however; each bank differs in the way that the profiles are accessed.

If you see a donor profile on an external website that is not listed on the CAN-AM website, it means that we do not currently have any units in stock for that donor but we are more than happy to check the donor status to see if units are available to order in.

Important Notes

Please keep in mind that our inventory changes daily. The number of genetic mutations that our suppliers are testing for is increasing. This means that it is becoming more common to see donors that are carriers of one or more genetic conditions. These donors require an informed consent to be completed before shipment.

Although shipping is estimated as overnight to most places in Canada, please try to provide shipment notification of four business days to avoid any rush order fees if shipment is possible.

Thank you for your interest in donor eggs through CAN-AM Cryoservices.

CAN-AM Cryoservices is the Canadian distributor for Fairfax EggBank, Cryos International, and Asian Egg Bank. We are happy to help you through the process of selecting a donor and ordering. The quoted costs include the donor eggs and shipping to your clinic. Please check with your clinic for any other applicable fees. Once you have selected a donor, please inform CAN-AM and we will reserve a cohort of eggs for you and send you your next steps. Please keep in mind that CAN-AM Cryoservices is a distributor; **we do not recruit donors.**
